INTERVIEW SUMMARY

Dear Sir:

In a telephonic interview initiated by Applicant's representative, James L. Shands, on November 3, 2009, Examiner Tung T. Vo and Applicant's representatives Steven J. Shumaker and James L. Shands (the "parties") discussed the above-referenced application. The parties generally discussed the differences between the invention defined by claim 1 and the disclosure of U.S. Patent No. 5,731,835 to Kuchibholta et al.

Applicant's representatives explained that the applied reference fails to disclose or suggest, among other things, using motion information to determine whether a portion of a video frame comprises at least a predetermined amount of predictive information if texture information indicates that the portion does not comprise at most a predetermined amount of spatial information, as in claim 1.

Application No. : 10/713,240
Docket No.:030361
Response dated November 23, 2009

No exhibits were shown. No agreement was reached.

Applicant thanks Examiner Vo for discussing the present application with Applicant's representatives on November 3, 2009.

Dated: November 23, 2009
